

## **URGENT – URGENT - URGENT**

### **COUNTERING RUSSIAN KIDNAPPING AND TORTURE OF CHILDREN**

---

### **A GLOBAL PLAN TO HELP BRING BACK THE CHILDREN TO UKRAINE**

---

Humanity for Freedom Foundation (HFF), a global non-profit, was established to bring an end to the evils that are perpetrated by authoritarian regimes around the world. There is no clearer example of this evil than the kidnapping, torture, and brainwashing of Ukrainian children by Putin and his enablers – including the recent actions by Belarus to kidnap children from Ukraine.

HFF has created a global program to help bring an end to these heinous acts. The program, called #ReturnTheChildren, is being executed in collaboration with the Ukrainian government and other governmental and non-governmental organizations around the world. From the perspective of Ukrainian President Zelenskyy and his administration, next to success in the counteroffensive, nothing is more important than the return of the roughly 25,000 children kidnapped by Russian forces and carried deep into Crimea, Mother Russia and Belarus. President Zelenskyy sees it as a moral responsibility to bring the kids back and at their request we have accepted the task to help – to reunite these children to their rightful place: in Ukraine and with their families.

Bringing an end to this evil and the psychological warfare against the Ukrainian people is critical to bringing an end to the war. HFF will make it a primary propaganda cudgel to wage against Putin, his Russian elite supporters, and international defenders; and to shore up support for further aid to Ukraine in the US and the West. The International Criminal Court's indictment of Putin on this matter has already impacted Putin's ability to travel and we want the impact on him to be even more severe.

HFF has a mandate from the Ukrainian people to force Putin to return the children through international pressure:

- United Nations
- Various parliamentary and congressional/White House actions
- Protests at Russian embassies/consulates
- Presentation to the Hague for more indictments of Russian officials/bad actors
- Pressure on Russian allies internationally
- 

Using this to stem the erosion of support among Republican and center/right voters and politicians in the US and similarly in the UK, Germany, France, and beyond is how we see the broader value.

However, the ultimate and priceless value of our efforts are the reuniting of these children to their country and their families.

We will execute this program in numerous ways that can't be fully discussed in a public document, but we will more broadly accomplish our mission by:

- locating the children via the use of state-of-the-art facial recognition abilities and human assets strategically placed in the occupied territories, Belarus, and Russia.
- deploying private and governmental assets to return the children as necessary.
- Collaborating with existing organizations within Ukraine to help them scale their efforts.
- Educating the public through the creation of digital assets, including a documentary, that highlight Putin's evil against the children.

### **WHY HFF AND MOVING FORWARD**

Humanity for Freedom Foundation, working with strategic partners globally, has the contacts, reputation, and legitimacy to work seamlessly to execute this program. Our high-level government contacts all over the world, experience with public relations and political campaigns, and expertise in global communications make possible the execution of this global campaign. In short, we have the experience and relationships that no organization has in executing this comprehensive strategy.

WE MUST ACT NOW! Putin is working to make it more difficult to track these kids and every day that passes lessens the chance of finding them and returning them to their family.

Your support will be vital in helping us carry out our time-sensitive and focused mission. We must stop the erosion of freedom and maintain a critically important global balance. TO ENSURE FREEDOM AND PROTECT GLOBAL INTERESTS, WE MUST END AUTHORITARIANISM.

All the best,
